Ongoing costs	Costs each year for managing your investments	£15.00	£150.00
Incidental costs	Impact of performance fee	N/A	N/A

\*Based on fund launch (25 November 2021) to 25 October 2021

<b>Our Product Costs Broken Down</b>		£10,000	£100,000
Cost Category		Costs	Costs
One off costs	Costs you pay when buying or selling your investments	£0	£0
Ongoing Costs	Costs each year for managing your investments	£13.00	£130.00
	Trustee fee	£2.00	£20.00
Transaction costs*	Standard commission rate	£0	£0
	Implicit Transaction Costs	-£1.04	-£10.38
Incidental costs	Impact of performance fee	N/A	N/A

**\*costs incurred by us buying and selling your underlying investments**

Transaction costs to purchase the ETF will be charged based on your broker's terms and conditions. Please speak with your broker to obtain this information.

### The Cumulative Effect of Costs on Return

The total charges deducted for each fund will have an impact on the investment return you might get. Whilst performance can't be guaranteed, we can give you examples of how the charges will affect what you might get back. This illustration assumes that costs occur evenly throughout the year, charges are paid out of the investment evenly throughout the year and that a net growth rate of 5% applies. The figures are estimates and may change.

In this example, charges (**including implicit transaction costs**) would reduce the amount your investment grows for one year to 0.29%. Putting it another way, this would have the effect of bringing the illustrated investment growth down from 5% to 4.71%. Please note that the year one figure includes one off costs that would not be applicable in subsequent years.

£10,000 lump sum invested in this fund since launch with an assumed growth of 5%	
Annualised Charges (%)	0.29%
Effect of charges on assumed growth rate of 5%	4.71%
What you would get back at 5%	£10,500
Effect of charges on returns (£)	£10,471

\*Based on fund launch (25 November 2021) to 25 October 2021
